More than Cooling

Freezing is the most effective method of **extending the life of fresh products** and preserving their **nutritional value**. It can also contribute to significantly reducing food waste. The Vestfrost freezer has a capacity of nearly 300 liters, is equipped with **advanced cooling technologies** and has a number of other **useful features**.

NOFrost

Cooling technology that allows even and simultaneous chilling and freezing of food; the fan prevents frost formation in the freezer compartment; defrosting takes place automatically.

Twisted ICEMATIC

Double rotary ice cube maker
- up to 384 cubes per day.

ZeroClearance

Collision-free and safe opening of the freezer door is a perfect solution for smaller kitchen spaces. You can place the appliance next to the wall or a kitchen cabinet and open the door up to 90 degrees without the need for any extra space.
