More than Cooling

Can a refrigerator safeguard the quality of the products stored in it? Vestfrost units can! Special technology **neutralizes odours** and **reduces static electricity**, while an advanced **air circulation system** and a **special filter** keep products fresh for longer.

NOFrost 

Cooling technology that allows even and simultaneous chilling and freezing of food; the fan prevents frost formation in the freezer compartment; defrosting takes place automatically.

NATURAL
ion
tech

Built-in ionizer neutralizes unpleasant smells and dust particles in the air.

maxi-fresh 

The Maxi Fresh filter eliminates the ethylene released from plants during their growth process, increasing shelf life of food.
